Subject: high tide line vs MHHW re CWA §404 permit jurisdiction
Attachments: Reasons_to_manage_for_highest_predicted_tidal_level_4-18-2013.pdf; ENCL_2_HAT INFO_ML_edits_June_2013.docx; HAT one-pager 4.2.13.docx

Hi Linda, i understand that you are interested in NMFS view of this matter. Attached are several docs that NMFS (E Babcock et al) have shared with COE-Seattle and Portland Division.

I note that COE-Alaska District is already using extreme high tide, and they include far more miles of coast than WA and OR and CA together.

Please contact me or Elizabeth if Q.

Thanks, ML
